**Mr. ANUJ AGARWAL**  
Director, DPS Megacity

*Education is the most powerful lever for socio-economic progress. Yet, access and opportunity remain uneven. Our duty is to ensure that learning reaches every child- not just as knowledge, but as empowerment. Socio-economic challenges often determine who gets to learn, how they learn, and what opportunities follow. But as educators, we must ensure that learning is not gated by circumstance. Our pedagogy must be inclusive, our policies equitable, and our vision bold. We create inclusive learning that empowers every student and puts equity at the core. With real-world aligned curriculum and strong family-community partnerships, we prepare learners for success beyond classrooms. When learning drives equity, progress is shared by all.*

**Dr. SUMAN SINGH GANGULY**  
Academic Director, DPS Megacity

*Keeping in mind that education is holistic forever, our well-designed curriculum encompasses academics, co-curricular activities, sports education and life-skills learning. The campus, sports and academic facilities all bear testimony to this belief. We provide value-based education that balances modern infrastructure with a strong curriculum, opening doors to global opportunities. With activities in values, environment, health, sports, arts, culture, and personality development woven into learning, our students thrive in a holistic environment.
